---

## OBJECTIVE

I'm a Software Engineer with 4 years of experience in Front-end development using angular framework. With proficiency in web technologies like HTML5, CSS3, Javascript, SASS, Flex. Building large-scale web applications, cross-browser platforms, and design constraints on the web, and building responsive user interfaces.

---

## WORK EXPERIENCE

**Gdigit Infotech**

**Front End Angular developer**

**Sept 2022 to Present**

**E-commerce Domain**

### Project Overview:

- Spearheaded a team of 8 in developing an Angular-based E-commerce domain project related to electric equipment, such as batteries and solar panels etc.
- This E-commerce domain have 3 modules such as admin, merchant, users, but I work on user module. Collaborated with UX/UI designers to implement clean, user-friendly interfaces.
- Worked closely with the back-end team to integrate RESTful APIs, ensuring seamless data flow and user experience and manage state and data flow using RxJs .
- Optimize web performance by leveraging lazy loading and code splitting.
- Implemented responsive design techniques to ensure web applications function smoothly across all devices.
- Participate in daily stand-ups and sprint planning meetings as part of an agile development team.

**Gdigit Infotech**

**Front end Developer**

**Aug 2021 to Sept 2022**

**Architectural and Interior Design**

### Project Overview:

- Worked on architectural and interior design which is related to designing and constructing buildings.
- Developed and maintained responsive, user friendly web interface using HTML5, CSS3, JavaScript.
- Worked on a school management website that showcased the features of principals, teachers, and parents who are managing the site.
- Collaborated with UI/UX designers to implement interactive and engaging user interfaces based on design specifications.
- Ensured cross-browser compatibility and responsive design across all devices and platforms.
- Consuming web API like web storage and fetch for fetching data which is loaded on UI.
- Participated in code reviews and provided feedback to ensure code quality and adherence to best practices.

**Gdigit Infotech**

**Application Support Engineer**

**Aug 2020 to Aug 2021**

### Project Overview:

- Provide technical support and maintenance for enterprise-level applications, ensuring optimal performance and downtime.
  - Troubleshoot and resolve application-related incidents, performing root cause analysis to prevent recurrence.
  - Collaborate with development and QA teams to deploy updates, patches, and new releases in production environments.
  - Document support processes, incident resolutions, and system configuration to improve operational efficiency.
  - Assisted in monitoring and supporting applications across multiple environment, ensuring high availability and reliability.
-

## SKILLS

- **Technical Skills:** Angular 10+, Angular Material, Typescript, Javascript(ES6 andES7), SASS, Bootstrap(4 and 3), CSS3, HTML5.
  - **Libraries:** Rxjs, jQuery Plugins.
  - **API Integration:** RESTful APIs, JSON, AJAX.
  - **Version Control:** Git,GitHub.
  - **Responsive Design:** Media Queries, Flexbox, Grid Layout.
  - **IDE& Tools:** Visual Studio Code, Angular CLI, Jira, webpack, npm.
- 

## EDUCATION

### Master of Business Administration (Information Technology)

July 2015 - July 2017

Pune university

- SNJB's COE, Nashik.

### Bachelor of Engineering (Information Technology)

June 2010 - June 2014

Pune university

- G.S.Moze, COE, Balewadi , Pune
-
