OBJECTIVE

I'm a Software Engineer **with 3.5+ years of experience** in Front-end developemnt using **angular framework**. With proficiency in web technologies like HTML5, CSS3, JavaScript,SASS,Flex. Building large-scale web applications, cross-browser platforms, and design constraints on the web, and building responsive user interfaces.

WORK EXPERIENCE

Gdigit Infotech

July 2022 to Present

Front End Angular developer

E-commerce Domain

Project Overview:

- Spearheaded a team of 3 in developing an Angular-based E-commerce domain project related to electric equipment, such as batteries and solar panels.etc.
- This E-commerce domain have 3 modules such as admin, merchant, users, but I work on user module.
- Collaborated closely with UX teams to integrate human-factor principles into the application design, enhancing user satisfaction by 25%.
- Coordinated with back-end developers to integrate RESTful APIs, improving the scalability of our web application by using best practices such as code splitting,lazy loading and caching.
- Develop custom pipes,directives as per client's requirement.
- Experience in developing web applications that are compatible with multiple devices such as mobile, tablet, etc.
- Participate in daily stand-ups and sprint planning meetings as part of an agile development team.

Gdigit Infotech

May 2021 to July 2022

Front end Developer

Architectural and Interior Design

Project Overview:

- Worked on architectural and interior design which is related to designing and constructing buildings. we use HTML5,CSS3,Bootstrap4,javascript and jquery plugins.
- Worked on a school management website that showcased the features of principals, teachers, and parents who are managing the site.
- Used advanced JavaScript to create a cross-browser compatible user interface.
- Worked with CSS background, layouts, positioning, text, border, margin, padding, Pseudo elements and behaviors.
- Participate in the UX design process and check technical feasibility.
- Consuming web API like web storage and fetch for fetching data which is loaded on UI.
- Develop application for desktop.

Application Support Engineer**Project Overview:**

- Address technical issues and guided end users through resolution.
 - Contribute to continuous improvement and quality assurance tasks.
 - Improved application performance through optimization of flow processes.
 - Coordinated with Level 1 technical support specialists to take over calls outside their level of support.
 - Provided support for application upgrades, ensuring seamless transition with minimal downtime.
 - Created and maintained user guides and technical documentation for internal use.
 - Monitoring application performance and identifying performance bottlenecks like detectives searching for clues.
-

SKILLS

- **Technical Skills:** Angular 10, Angular Material, Typescript, Javascript(ES6 and ES7), AJAX, FLEX, SASS, Bootstrap (4 and 3), CSS3, HTML5, JSON.
 - **Libraries:** Rxjs, jQuery Plugins.
 - **Version Control:** GitHub.
 - **IDE & Tools:** Visual Studio Code, Vercel, Postman, Firebase, Angular CLI, Jira.
 - **Certifications:** MS-CIT, English Typing 30 words/minute.
-

EDUCATION**Master of Business Administration (Information Technology)**

July 2015 - July 2017

Pune university

- G.S.Moze, COE, Balewadi, Pune

Bachelor of Engineering (Information Technology)

June 2010 - June 2014

Pune university

- SNJB's COE, Nashik.
